

The Daily New Mexican

THE NEW MEXICAN PRINTING CO.

Entered as Second-Class matter at the Santa Fe Post Office.

RATES OF SUBSCRIPTIONS.	
Daily, per week, by carrier	1.00
Daily, per month, by carrier	3.00
Daily, per month, by mail	2.50
Daily, three months, by mail	7.50
Daily, six months, by mail	14.00
Daily, one year, by mail	25.00
Weekly, per month	2.00
Weekly, per quarter	5.00
Weekly, per six months	10.00
Weekly, per year	18.00

The New Mexican is the oldest newspaper in the Territory and has a large and growing circulation among the people of the Territory and the southwest.

ADVERTISING RATES.

Wanted—One cent a word each insertion. Local—Ten cents per line each insertion. Reading Local—Fifty cents per line, single column, per month in Daily. One dollar an inch, single column, in either English or Spanish Weekly. Additional prices and particulars given on receipt of copy of matter to be inserted.

THURSDAY, MAY 19.

The people of this country, as a whole, are in favor of the independence of Cuba. There is no argument necessary in that direction.

This country's war spirit is coming to the front rapidly. Mrs. Ace, of North Carolina, has just presented her husband with four sons. Spain cannot beat that.

Colonel Wood, who ought to be a good judge, is very well pleased with the New Mexico volunteers, so he says to Governor Otero in a letter published in another column. The New Mexico volunteers are all right.

The Albuquerque Citizen remarks, and that very properly:

This territory can fill all government demands for troops, and will show the states that its people are capable and worthy of self-government.

The cattle and sheep owners in the territory are all right and this year will prove again prosperous to them as did the year 1897. Score another one for providence and the present Republican national administration.

War or no war, political matters must be attended to and that right along. Elections will be held regardless of war and these must be carried by the Republicans all over this great and fertile land. Hence political questions should not be neglected.

The president of Harvard university is riding around Boston on a bicycle and he is wearing red golf stockings. Blue blooded Boston now feels that being shelled by a Spanish fleet would be a pleasant diversion after such a fearful shock.

The yellow Democratic journals are glorying in publishing false stories concerning the gigantic powers of the Spanish fleet in the Caribbean sea. Patriotism cuts no ice with papers of that class, so long as they can sell extras and make money.

Poor old Spain is learning the lesson which the thousands of years of the history of the race have been teaching—that there is nothing so costly and dear in the long run as injustice and oppression. In moral and national affairs, as in natural ones, the balance is always restored sooner or later.

Says the Peoria Evening Star: Years ago Nussbaum & Co. were the great dry goods firm of this city. One of the members was Simon Nussbaum. He was a smart, active, pushing man, and he finally went down to New Mexico and located at Santa Fe. Word reached here yesterday that he has been appointed by President McKinley postmaster in that city. We congratulate Simon and his friends.

The question whether war helps or hurts business is fully as unpolitical and contemptible as whether it helps or hurts any one political party. The question should be decided on its merits as a question of national honor and dignity, and that is what the vast majority of the people of the country are deciding it on, as the present situation clearly shows.

The owners and editors of the yellow Democratic papers, who clamor to supplant the cool and deliberate judgment of the president, who in this hour of need is the true custodian of national honor, are not the ones who rush to a recruiting office to enlist. Not by a good deal. They stay at home and abuse the administration from the safe precincts of their offices.

Somewhere by the name of Edward J. Murray sent a dispatch to the New York World from Las Cruces to the effect that the New Mexico volunteers were nearly all foreigners and that there were no cowboys amongst them. What Mr. Murray (wonder who he is, he says, he is a resident of Lincoln county) does not know about the New Mexico volunteers would fill a very large book of many pages.

It must be a blissful thing to be a wife's sister in England. They have been fighting for years over there for the right of a man to marry a deceased wife's sister, and now there is a stormy dispute in the newspapers as to the legality of marrying a divorced wife's sister. The only trouble about this charming love for the sister would seem to be the fact that as soon as she is married she isn't her husband's wife's sister any more.

There certainly exist many differences of opinion in this country, but on the matter of loyalty to the republic in a war against a foreign power, our people

are substantially a unit, despite the howlings of a few newspapers and politicians, who think more of lucre than of national honor. It is worthy of remark that this is the first time in the history of this country that a foreign war has been entered into with singular unanimity of opinion on this vital point.

Admiral Dewey has ability of the highest order as an executive officer and he has also the gift of condensation, which is a great and good thing. His dispatches are short, but contain much information and to the point; he does not ask for much, wants to be left alone and he will work out the Philippine islands problem all right. He has the city of Manila at his mercy and as soon as troops are furnished for operations on land, the Spaniards will be made to give up the city. Within a month more great and good news will be received from Dewey. He knows how to do it.

Teddy and His Brownies. The Baltimore American thus describes Lieutenant Colonel Theodore Roosevelt, who has the honor of being second in command of a regiment of United States volunteers, which contains five troops furnished by New Mexico:

"Theodore Roosevelt has made a fine assistant secretary of the navy. His industry has been prodigious, his interest intelligent and valuable. He has infused real life into all that he has touched. There are no cowboys in any office he occupies, and red tape is his abomination. He is strong, virile, ambitious, tireless.

"Small wonder, then, that in stirring times he stirs with the times. If not ahead of them. From the day war was declared he has said he would resign and see the fun at the front. And he is as good as his word, as he always is. Yesterday the president appointed him a lieutenant colonel of a cavalry regiment, which he and a friend will raise. This regiment will be the picturesque feature of the war. Mr. Roosevelt is himself a half-tamed cowboy, who owns a large landed in New York and draws his bulge there, but whose heart is on the far west. And the other cowboys will want to serve with him, and the result will be all that any government could ask.

"There is work for these volunteers of the plains, and as they sweep forward on a charge, with the determined Teddy at their head, it will be a sad day for the enemy. Long life to Roosevelt! May he win battles and miss all the bullets!"

The People's War.

In the interests of common decency, the yellow journals of no particular creed, and the hide-bound opinion disseminators of the Democratic faith, should cease in their endeavors to make political capital of the present war. It is not a Democratic war, a Republican war nor a Populist war. It is the people's war. The people clamored for war, the people shuddered at Spanish atrocity and the responsive heart of the whole people demanded war for humanity's sake and the final restoration of supreme peace. Every federal and state government official, whether Democrat, Republican or Populist, and every honest citizen, irrespective of political belief or party affiliation, who contributes to the army and navy against Spain or who raises hand or voice in upholding the honor and dignity of this nation, is entitled to the fullest measure of praise.

The fact that the war is being prosecuted under a Republican administration does not excuse a Democrat from patriotic duty, nor does it grant either party the laurels of victory or fix the responsibility. The people were unanimous in declaring for war, congress was unanimous in granting it and the president was in ready acceding to it.

Party must be subordinated to patriotism and any effort to cull political capital from affairs affecting national honor is most reprehensible.

Every citizen owes the country a patriotic obligation for the privilege of living beneath the folds of the stars and stripes. The Republican and Democratic parties both contributed to the magnitude of the country, framed its laws and declared for its free institutions. There is a balance in favor of the Republican party in this matter, and the burden of the responsibility of creating a government worth living under, falls more on the shoulders of the Republican party. Every great crisis of the nation has been squarely met by the Republican party and so far the results have been uniformly productive of good.

When the American people stop to realize these things they will rest easy in the belief that the same grand old party will carry on this war for them under the most improved conditions and conclude it successfully.

The cries of "treason," "bribery," "traitorous senators," etc., by the Democratic papers, in an endeavor to make votes, is vicious, malignant and disloyal. It will prove a boomerang that will sweep that party to continued defeat.

A bond issue for war purposes has already been created—a veritable straw man—that met fierce attacks of vituperation and was finally annihilated by the Democratic press. Contrary to expectations, the bonds were not issued, and the nation is in a good condition financially and otherwise, despite the vast war expenses and the interest that must be kept up on bonds issued under the Democratic Cleveland administration in a time of peace.

But further comment is unnecessary. It is the people's war; not a party war. Every person and party loyal to the country's cause should receive favorable consideration, and in the matter of giving the devil his due, it is well to observe that many Democratic papers and some strong factions of the Democratic party are giving evidence of commendable patriotism.

OFFICE FITTINGS.

Filing cabinets of every description, document boxes and files, pigeon hole cases, legal blank cases, office ticklers and every conceivable kind of office fittings and furniture can be had of the New Mexican Printing Company. Write for descriptive, illustrated pamphlets.

SHEEP AND CATTLE

Ranges of the Territory Being Rapidly Stocked from California, Arizona and Texas Points.

STOCK SHIPMENTS EAST

War Will Create a Greater Demand for Beef and Cause Prices to Advance—Wool Holding a Good Investment.

The stock industry is receiving more attention than ever before in the history of New Mexico, and the temporary setback owing to the war scare, which caused prices to drop and induced buyers and sellers to transfer their transactions to later dates, is being offset by the large bank reserves demanding investments, and looking to stock as a safe one. Prices are firm at \$18, \$20 and \$23, and the market has an upward tendency. It is generally realized that war, instead of increasing the number of cattle and decreasing the values, is creating a demand and, consequently, prices are climbing up and will continue to advance until fall deliveries give a check. The foreign demand is as strong as at any time, and will increase. A great shortage of beef cattle is admitted by all.

Ranchmen generally are improving their stock, and there are plenty of buyers for improved stock at all times. Old cattle producing states in the east, such as Indiana, Illinois, Ohio, Iowa and Missouri, are being devoted largely to farm products, and to producing feed for the cattle secured from the west. The field for the cattle business in this territory is gradually broadening and local stockmen are taking advantage of the conditions.

The demand for wool is not strong at present, but local growers are not affected, for they have no inclination to sell. The manufacturers stock is being rapidly consumed and prices will advance shortly. Present holders of wool need not worry about the outlook, for that article, in storage or on the sheep, is a better investment than the money secured and drawing interest on government bonds.

GENERAL STOCK NOTES.

At Anton Chico the lamb crop is a success. Sheep men had good success lambing at Liberty.

Spring shipments of cattle from Grant county will be light.

The Pecos Valley railway is handling two trains of stock per day.

J. N. Upton is gathering 600 head of yearlings for shipment from Deming.

Emello Valdez, of Springer, is improving his stock with thoroughbred Hereford bulls.

E. Oyarzabal, of Capistrano, Calif., will establish a large sheep ranch in Colfax county.

Sheep and cattle values in New Mexico have increased over \$20,000,000 in the past year.

Kemany Ritter, of Liberty, has shipped 12 carloads of steers to his Kansas pastures.

Last week 3,024 head of stock were sold at Eddy, the selling parties receiving \$54,483.50.

Garret & McCormick have received 400 head of Arizona cattle for their range near Cimarron.

Jaffa & Praeger are shearing 7,000 head of sheep near Roswell and 3,000 head at Lake Arthur.

Excellent grass and an abundance of water make the Alamogordo, Guadalupe county, sheep men smile.

The Bloom cattle company is unloading and branding its importation of Arizona cattle at Lake View.

About 40,000 head of cattle from Arizona and Texas will be added to the Colfax county range this spring.

Judge L. S. Trimble reports that 10,000 California sheep are grazing on the pastures east of Albuquerque.

Oscar Troy, of Colfax county, says his sheep are healthy, well fleeced and the lamb crop will be unusually good.

J. P. White, of Roswell, has shipped 2,600 head of yearling steers from Channing, Tex., to Kansas feed lots.

Hon. Sol. Luna, of Valencia county, says the lamb crop is unusually large and that the percentage is 106 this year.

At Puerto de Luna and along the Pintada the rains came too late for sheep men and they lost 80 per cent of their lambs.

W. G. Hamilton, of Eddy, lost 100 sheep (owes with lambs) last week. Their death was due to wet alfalfa and poison weed.

Ed. Brown, of Silver City, received 1,200 head of cattle from the upper and lower Mimbres last week for shipment to Kansas.

A. M. Richardson, manager of the Captain Land & Cattle company, has started 5,200 head of cattle from Roswell for Pecos.

L. V. Oleasne has leased the Dawson ranch near Maxwell City, Colfax county, and will stock it with 15,000 sheep from Mojave, Calif.

Fred Harris, of Aztec, bought a bunch of cattle of one of the Firebaugh boys last week. Harris will range them near Parrot City, Colo.

John Rouiller, P. V. Vaughn and Jim Long have delivered several hundred head of cattle at San Marcial for eastern shipment.

The numerous snows in Colfax county have saturated the ground with moisture and stockmen are now sure of good pasture there.

Sheep thieves are working in the Hope district. J. O. Cameron, John and George Beckett and Gilbert O'Neil have lost about 600 head.

Hood & Cunningham, E. Dickinson, William Brahm, Julius Wellhausen, Christian Fleury and John Lucas shipped 650 head of cattle from Silver City last week.

A. J. Crawford, of Eddy, is shearing his sheep and the clip will amount to 90,000 pounds. He has two other clips in storage and has not disposed of any wool for two years.

The Matheon Commission company at Eddy last week received wool as follows: G. A. White, 1,700 pounds; Smith & Fite, 8,000 pounds; George and John Beckett, 16,000 pounds.

Is the baby too thin? Does he increase too slowly in weight? Are you in constant fear he will be ill? Then give him more flesh. Give him more power to resist disease. He certainly needs a fat-forming food. Scott's Emulsion is just that food. It will make the baby plump; increase the weight; bring color to the cheeks, and prosperity to the whole body. Thin children take to it as naturally as they do to their milk.

Scott's Emulsion is just that food. It will make the baby plump; increase the weight; bring color to the cheeks, and prosperity to the whole body. Thin children take to it as naturally as they do to their milk.

Scott's Emulsion is just that food. It will make the baby plump; increase the weight; bring color to the cheeks, and prosperity to the whole body. Thin children take to it as naturally as they do to their milk.

Scott's Emulsion is just that food. It will make the baby plump; increase the weight; bring color to the cheeks, and prosperity to the whole body. Thin children take to it as naturally as they do to their milk.

Scott's Emulsion is just that food. It will make the baby plump; increase the weight; bring color to the cheeks, and prosperity to the whole body. Thin children take to it as naturally as they do to their milk.
